In the original publication [1], there was a mistake in Figure 1 as published. A new yellow circle has been added to clarify the action of brodalumab on IL-17A, A/F, and F. The three items named TRAF6 (colored in light green) have been substituted for the correct name: TRAF2/5. The corrected Figure 1 appears below. The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. The original publication has also been updated.
